

# Goodbye Heartache

**Mark Chesnutt**

You've been gone almost a month  
Girl I nearly died  
For twenty seven days and nights  
Sat right here and cried  
If it wasn't for your memory  
I'd been here all alone  
Goodbye heartache, darlin' welcome home

Treat me any way you want to  
Even cuss and swear  
Call me anything you need to  
I promise I won't care  
Just let it all out, your right I was wrong  
Goodbye heartache, darlin' welcome home

There's really just no good excuse  
For the things I said  
The way that I stood up to you  
I must have lost my head  
And I'm not ashamed to say  
Thank God those days are gone  
Goodbye heartache, darlin' welcome home

Treat me any way you want to  
Even cuss and swear  
Call me anything you need to  
I promise I won't care  
Just let it all out, your right I was wrong  
Goodbye heartache, darlin' welcome home
