Sweet Nadine

Arc Angels

Here comes sweet Nadine
I see her face just like the perfect dream
She's long and she's lean
And the fire in her eyes could burn a hole
In my soul right through meI love sweet Nadine
I'd be her fool, I'd be her anything
Now you know what I mean
If lovin' her is deadly, death is what I'd needSweet, sweet Nadine
Sweet Nadine
That ain't her real name
But you know what I meanListen here sweet Nadine
Honey we got lucky this is the real thing
Some people search their whole life through
Still they don't find anything
Like this connection between me and youI promise you sweet Nadine
Oh, honey this is serious, yes I got the ring
You know what this means
So pack up those doubts and fears from yesterday
Throw them away and come with meSweet, sweet Nadine
Sweet Nadine
That ain't her real name
But you know what I meanAnd the people say,"Hey, take it slow"
But love is blind, deaf and dumb and it can't be told
'Cause you see this girl she ain't just beautiful
That she is but with a whole lotta soulAnd the people say,"Hey, take it slow"
But love is blind, deaf and dumb and it can't be told
'Cause you see this girl she ain't just beautiful
That she is but with a whole lotta soulSweet, sweet Nadine
Sweet Nadine
That ain't her real name
But you know what I meanSweet, sweet Nadine
Sweet Nadine, sweet Nadine
