

Here I Go (demo)

Relient K

Oh, believe me, I have tried
To work this out from the inside
Then I finally realized
I just need to move on with my life
Gotta make something happen
Not just sit around and wait for it
This place is like a prison
I think I'm gonna make a break for it
Whoa, whoa, here I go
It's like I'm living for the first time
Whoa, whoa, here I go
And I'm thinking it's the first time I felt alive
I've been suppressed, I've been let down
Been pushed aside, been pushed around
There's only one thing that I need
That's something you can't take from me
Gotta make something happen
Not just sit around and wait for it
This place is like a prison
I think I'm gonna make a break for it
Whoa, whoa, here I go
It's like I'm living for the first time
Whoa, whoa, here I go
And I'm thinking it's the first time I felt alive
Whoa, whoa, here I go
It's like I'm living for the first
Whoa, whoa, here I go
And I'm thinking it's the first time I felt alive
Move out, move on
You blink and I'm gone
I've only got one life to live
I'll live it now
You'll have your doubts
I'll prove them wrong
This is the only thing I know
So here I go
Whoa, whoa, here I go
It's like I'm living for the first time
Whoa, whoa, here I go

And I'm thinking it's the first time I felt alive
Whoa, whoa, here I go
It's like I'm living for the first
Whoa, whoa, here I go
And I'm thinking it's the first time I felt alive
