

All By Myself

Johnny Burnette

Little girl don't you want to stay?

I want to be your lover man

All by myself

All by myself

I don't need no one to love you

I'm gonna love you all by myself

You'll find, little girl, you know it too,

Don't you know I'm in love with you

All by myself

All by myself.

I don't want no one to love you

I want to love you all by myself

Meet me in the parlor 'bout half past one,

We'll go on down and have some fun

All by ourselves,

All by ourselves,

We don't need nobody with us

We gonna do it all by ourselves.
