

A Better Future (Remix by Air)

David Bowie

Please dont tear this world asunder
Please take back this fear were under
I demand a better future
Or I might just stop wanting you
I might just stop wanting youPlease make sure we get tomorrow
All this pain and all the sorrow
I demand a better future
Or I might just stop needing you
I might just stop needing youGive my children sunny smile
Give them moon and cloudless skies
I demand a better future
Or I might just stop loving you
Loving you, loving youWhen we talk, we talk to you
When we walk, we walk to you
From factory to field
How many tears must fall
Down there below nothing is movingI might just stop wanting you
I might just stop needing you
I might just stop loving youI demand a better future
I demand a better future
I demand a better future
For I might just stop loving you
Loving you, loving youI demand a better future
I demand a better future
I demand a better future
For I might just stop loving you
Loving you, loving youI demand a better future
