I Found the Lions

Carolyn Wonderland

I found the lions
I escaped their jaws
I kept a few of their teeth
But I let them keep their claws
I found the lions or maybe they found me
Could have been bad luck
Or it could have been my destiny
I played dead
But my pulse was too loud
The hyenas giggled as the lions formed a crowd
I played dead
The buzzards in the tree
Waited for the lions to make a meal out of me

Donâ€™t mess with the mighty mighty jungle
Swim through the ocean
Eat the fish in the sea
Donâ€™t mess with the mighty mighty jungle
Because where you find the lions
You will find me

I found the lions
I fell into their lair
No one was there to help me
No one was there to care
I found the lions or maybe they found me
When you stumble in the jungle
It is all a mystery
I played dead
They tossed me around
I kept one eye on the buzzards
And the other on the ground
I played dead
My blood turned thin
The hyenas giggled as the lions closed in

Out of me out of me
Youâ€™ll get a little grub
A little bit of skin

And a bone for the cub
No monkey no beast
No dinner no feast
No flood of blood to say the least
Out of me out of me
Youâ€™ll come to find
Iâ€™m the king of your state of mind
Out of me out of me out of me youâ€™ll get
All that you will come to regret

Donâ€™t mess with the mighty mighty jungle
Swim through the ocean
Eat the fish in the sea
Donâ€™t mess with the mighty mighty jungle
Because where you find the lions
You will find me
