A Party Song (the Walk Of Shame)

All Time Low

I took a walk for the very first time
On the dark side of the dance floor
Lit a match just to heat things up
But I got more than I bargained for
Mixed drinks, mixed feelings of elation
I should have known it was a one night invitation
Don't sweat it, forget it, everything is a okay
Just let it go then it's off to find another face
I'll make you come just to watch you leave
You walk around with my heart on your sleeve
Don't sweat it, it's over now, our time ran out
I took an oath but I'm giving it up
You didn't have to see things my way
Nothing more than a casual fuck
Isn't that just how we operate?
Let's drink to feelings of temptation
You and I, we're an overnight sensation
Don't sweat it, forget it, everything is a okay
Just let it go then it's off to find another face
I'll make you come just to watch you leave
I walk around with your heart on my sleeve
Don't sweat it, it's over now, our time ran out
Outside, the brake, light's started to dim
I feel the tension that's been pulling us in
And then we do it again so we can feel all right
Falling in love for the night
Don't sweat it, forget it, everything is a okay
Just let it go then it's off to find another face
I'll make you come just to watch you leave
You walk around with my heart on your sleeve
Don't sweat it, it's over now
Our time ran out, our time ran out
Our time ran out, our time ran out
Our time ran out
