

Zig Zag Line of Life

[Rick Benn](#)

I had King Queen and I limped on in
The rest were folding with one staying in
Then came the flop, two six and king
Still liking my hand,I'm not showing a thing
I'm raising a nickel ,he's raising a dime
A Jack on the turn,now it's sweating time

Walking that zig zag line of life
Doing my best just to get it right
Walking that zig zag line of life
Cutting it close just to get it right

Well I drew my line in the sand
But the tide came in and change my hand

I had two Kings I was flying high
I went all in looked him straight in the eye
He looked over at me and flipped his aces
Only the river to come but I think I'm wasted

The dealer took a second and a reach for the card
He flipped up an ace, why is winning so hard?

Walking that zig zag line of life
Doing my best just to get it right
Walking that zig zag line of life
Cutting it close just to get it right

Well I drew my line in the sand
But the tide came in and change my hand

It changed my hand
It changed my hand
It changed my hand
