If Only They Knew

[A Rocket To The Moon](#)

Talk to me, I'm torn
I could get lost in a voice like yours
Tell me if I'm wrong or right
Tell me I can stay tonight
It's in the way that you fool everyone when you're falling in love again
So tell me, how this ends
Cause no one knows you like I do
They don't see you like I do, baby
They try to, oh if only they knew
He'll never come close to you
Girl you know you got it
Oh, you know you do it better
(Girl you know you got it)
(Oh, you know you do it better)
Girl you know I want it
Oh, I want it more than ever
(Girl you know I want it)

(Oh, I know it's now or never)
Cuz no one loves you more than I do
They don't see you like I do, baby
They try to, oh if only they knew
He'll never come close to you
They'll never come close to you
And you brighten up the wrong
With your eyes
And you're so damn lonely
When you're on my mind
Cuz you're the only one
Cuz no one knows you like I do
They don't see you like I do, baby
They'll try to, oh if only they knew
They'll never come close to you
He'll never come close to you
They'll try to, oh if only they knew
He'll never come close to you
