

Good Morning Sun

Magna Carta

I'm just taking it easy
i'm stting here I got nothing to say
progress seems to pass me by
and I just look, the other way
counting up the bottles on the floorgood morning sun (how're you doin')
good morning sun (well I'm fine)
good morning sun
hey won't you shine on me
leave the bad for a loser
headline news got nothing for me
same old weary touch and go
it brings you down so let it be
forgotten like an old man in the raingood morning sun (how're you doin')
good morning sun (well I'm fine)
good morning sun
hey won't you shine on me
good morning sun (how're you doin')
good morning sun (well I'm fine)
good morning sun
hey won't you shine on me
