

Look What Happened

Less Than Jake

And I swear it's the last time and I swear it's my last try
And we'll walk in circles around this whole block
Walk on the cracks on the same old sidewalks
And we'll talk about leaving town, yeah we'll talk about leaving
I swear it's the last time and I swear it's my last try We rode across that bridge all night
We talked our way through city lights
Traced all the lines we're killing time
Under those buzzing signs
From downtown to anywhere but here Tonight yeah I swear to these rooftops
And just hoped that car would never stop And I swear it's the last time and I swear it's my last try
And we'll walk in circles around this whole block
Walk on the cracks on the same old sidewalks
And we'll talk about leaving town, yeah we'll talk about leaving
I swear it's the last time and I swear it's my last try We drove around this place all night
Past closed signs and familiar sights
We're moving by passing time
Counting those center lines
With 20,000 lines left to go That lead to somewhere I don't know
It might be the time that we leave this all behind And I swear it's the last time and I swear it's my last try
And we'll walk in circles around this whole block
Walk on the cracks on the same old sidewalks
And we'll talk about leaving town, yeah we'll talk about leaving
I swear it's the last time and I swear it's my last try And there's been a few times
That we, we thought it felt right
To take the westbound signs
And just leave town tonight And I swear it's the last time and I swear it's my last try
And we'll walk in circles around this whole block
Walk on the cracks on the same old sidewalks
And we'll talk about leaving town, yeah we'll talk about leaving
I swear it's the last time and I swear it's my last try I swear it's my last try
And we'll talk about leaving town
Yeah we'll talk about leaving town
