

# I Didn't Mean to Hurt You

[Paul Weller](#)

I've heard them all talking, I guess you have too  
Adding flickers to the flame  
How I've treated you  
I take the blame But let me say that they don't know  
The really don't know, the fools don't know  
That I really didn't mean to hurt you Oh darling, I didn't mean to hurt you  
Please believe me when I say  
That I didn't mean to hurt you, girl Whatever they tell you, there's more I could say  
Lending motion to the wheel  
How you built me up  
When I was falling down But who knows, you just might find  
Just might find that I'm just your kind  
And I really didn't mean to hurt you And tho' I was looking there for something  
Some things have no meaning  
While I was looking there for something  
Everything had gone And still as I looked, I lived  
And still as I lived, I wondered
