

# Pale

## Haelos

Hold on.  
It won't hurt.  
Just swallow you whole.  
These shadows,  
We follow,  
Into the pale,  
The mist and the male.  
Just don't say: "No sunlight"  
"No sunlight, no"  
"It's alright, when your light goes."  
"No sunlight. No sunlight, no."  
"No sunlight. No sunlight, no."  
"It's alright, when your light goes."  
"No sunlight. No sunlight, no." By the moon, by the moon, by the moon, by the moon. Washed up,  
These beaches,  
Like salt to your soul.  
So death to,  
Those preachers,  
Broken & whole,  
No modern sound, old. No sunlight.  
No sunlight, no  
It's alright, when your light goes.  
No sunlight. No sunlight, no.  
No sunlight no. No sunlight.  
When your light goes.
