

One Year Past 20

Judd & Maggie

Something 'bout the way you say shut up makes me know I'm gonna miss you
We're gonna have to do without plenty of things and these bleeding wings are almost off
So would you let me apply myself to you and let me sing as far out of tune as I want
'Cause I'm already one year past twenty with two broken hearts maybe one you could restart

I don't know how I get attached over night
I don't think I'll ever make you mine I don't know just how I might
So would you let me apply myself to you and let me sing as far out of tune as I want
'Cause I'm already one year past twenty with two broken hearts maybe one you could restart

Oh now I'm swimming in the waves and I can't leave this this stormy bay
In the better story I'll get out so put the book down I don't get out

'Cause I'm already one year past twenty please don't break my heart
please don't break my heart

Oh now I'm swimming in the waves and I can't leave this this stormy bay
In the better story I'll get out so put the book down I don't get out
