

# Sleep Walkin'

## Masters of Reality

I don't know where I'm goin', my horizon is prone  
Got nothin' in my eyes and I got an achin' in my bones  
Tryin' keep movin', don't know what else to do  
Gotta keep walkin', gotta walk on through I've been movin' in circles, been around many times  
I never see the light, I'm a sleep walkin', baby, all the time  
Sleep walkin' I got taken away when the sun went down  
And I stood there in my own mind  
The way a stranger prowls around  
I'm walkin' in darkness I can see one thing is right  
I love a company when I walk in the night I've been movin' in circles, been around many times  
I'll never see the light, I'm a sleep walkin', baby, all the time  
Sleep walkin', I'm sleep walkin' Don't know where I'm goin', my horizon is prone  
Got nothin' in my eye, I got an achin' in my bones  
Tryin' keep movin', don't know what else to do  
Gotta keep walkin', can I walk with you? I've been movin' in circles, been around many times  
I never see the light, I'm a sleep walkin', baby  
Movin' in circles, been around many times  
I never see the light, I'm a sleep walkin', baby, all the time  
Sleep walkin', sleep walkin', sleep walkin'
