

# She Won't Be Lonely Too Long

Jake Owen

Somewhere there's a girl out there tonight  
Heartbroken, it's showin', a little more with every glass of wine  
It won't take too much time till she catches the eye  
Of someone who she can talk to to get that certain someone off her mind

Chorus:

She's had too many sleepless nights  
With no one there to hold her tight  
Ah but she's gettin' tired of lyin' there alone  
She's gonna cry a few more tears  
But they're about to disappear  
She's right there on the edge of movin' on  
Yeah, she might be lonely, but she won't be lonely too long  
Somewhere there's a man out there tonight  
Regrettin' ever lettin' a woman like her walk out his door  
Knowin' if he only payed a little bit more attention, maybe listened  
She wouldn't need what she's out lookin' for

Chorus:

She's had too many sleepless nights  
No one there to hold her tight  
Ah but she's gettin' tired of lyin' there alone  
She's gonna cry a few more tears  
But they're about to disappear  
She's right there on the edge of movin' on  
Yeah, she might be lonely, but she won't be lonely too long  
She's had too many sleepless nights  
With no one there to hold her tight  
Ah but she's gettin' tired of lyin' there alone  
She's gonna cry a few more tears  
But they're about to disappear  
She's right there on the edge of movin' on  
She might be lonely  
Yeah she might be lonely  
Oh, she might be lonely  
But she won't be lonely too long
