Chasing The Night

Every Avenue

Let's turn this up a little bit louder, yeah, yeah
Keep singing along as the night gets longer
Let's turn this up a little bit louder, yeah, yeah
Keep singing along as the night gets longer
Let's keep it moving
Keep our feet up off the ground
We hate to leave
But we'll be back around, yeah
These are the days that we will always remember
Chasing the night to make our days better
These are the days that we will always remember
Chasing the night to make our days better
The sun sets and we're setting sail to another town
Got all the windows down and the radio up
Let's do it again, keep the rhythm with our hearts
This is why we wake up, what it's all about
Let's turn this up a little bit louder, yeah, yeah
Keep singing along as the night gets longer
These are the days that we will always remember
Chasing the night to make our days better
These are the days that we will always remember
Chasing the night to make our days better
Let's turn this up a little bit louder
Let's turn this up a little bit louder
Let's turn this up a little bit louder
Let's turn this up a little bit louder
Keep singing along as the night gets longer, oh no
Chasing the night to make our days better
These are the days that we will always remember
Chasing the night to make our days better
Let's turn this up a little bit louder, yeah, hey
Keep singing along as the night gets longer
