

# All My Days

## Alexi Murdoch/Alexi Murdoch

Well I have been searching all of my days

    All of my days

    Many a road, you know

    I've been walking on

    All of my days

    And I've been trying to find

    What's been in my mind

As the days keep turning into night Well I have been quietly standing in the shade

    All of my days

    Watch the sky breaking on the promise that we made

    All of this rain

    And I've been trying to find

    What's been in my mind

As the days keep turning into night Well many a night I found myself with no friends standing near

    All of my days

    I cried aloud

    I shook my hands

    What am I doing here

    All of these days

    For I look around me

    And my eyes confound me

    And it's just too bright

As the days keep turning into night Now I see clearly

    It's you I'm looking for

    All of my days

    Soon I'll smile

I know I'll feel this loneliness no more

    All of my days

    For I look around me

    And it seems He found me

    And it's coming into sight

As the days keep turning into night

As the days keep turning into night

    And even breathing feels all right

    Yes, even breathing feels all right

    Now even breathing feels all right

    It's even breathing

    Feels all right
