

# The World Will Never Do (feat. B.O.B)

## Cobra Starship

A precocious kid always had to do it my way, my way  
Go on, tell 'em what I did  
I only will admit it my way, my way, yeah  
Always had my eyes set on the top  
Everybody want what they never did got I know it sounds cliché but you know it's true  
Girl, there's no me without you Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world to deceive them? We've got no reason to be alone now  
We got no reason to be what they want us to be I'm taking my time 'cause I know  
Soon you'll be mine, that's for sure  
I'll show you the way it could be  
Just pay for my time, the rest is free Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world to deceive them? We've got no reason to be alone now  
We got no reason to be what they want us to be Yeah, I'm fallin' out the sky without a parachute  
With ideas and beliefs that you never knew  
Still real enough to start an evolution  
Though some say that's what the world will never do Until then the plan is on the revenue  
And politics is usual but I don't wear a suit  
But even still it's what I'm compelled to do  
So just read between the lines, girl, I'm tellin' you So you gotta stick with me like Elmer's glue  
'Cause I gotta be rollin' with a soldier through the desert blue  
And just know I'm in the storm resolute  
Because if I ain't on the job the world will never move Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world to deceive them? We've got no reason to be alone now  
We got no reason to be what they want us to be Who wants the world? Who wants the world?  
There's no world without you Who wants the world? Who wants the world?  
There's no world without you  
Who wants the world? Who wants the world?  
There's no world without you  
Who wants the world? Who wants the world?  
There's no world without you Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world? The world will never do  
Who wants the world? Who wants the world? The world will never do

Who wants the world? The world will never do  
Who wants the world? The world will never do  
There's no world without you
