Last Night

Ryan Cabrera

Can you feel the rain?
Can you feel the cold surround you?
You and I are the same
Perfect in our own weird wayDo you believe that things can change?
Do you believe they stay the same?
'Cause I don't need your light to light my way
I don't need it, I'm wide awakeLast night's the last time
I'll shut my eyes
I wanna leave my best side behind when I go
I want you to know, I want you to knowCan you feel me breathe?
Can you feel the heart that's beating?
I'm sick and tired of feeling
The candle burn inside of meDo you believe that people change?
Do you believe they stay the same?
'Cause I don't need your light to light my way
I don't need it, I'm wide awakeLast night's the last time
I'll shut my eyes
I wanna leave my best side behind when I go
I want you to know thatLast night's the last time
I'll run and hide
I wanna believe I lived my life on fire when I go
I want you to knowI want you to know
I want you to know
I want you to knowLast night's the last time
I'll shut my eyes
I wanna leave my best side behind when I go
I want you to know thatLast night's the last time
I'll run and hide
I wanna believe I lived my life on fire when I go
I want you to know
