Same Disease

Red

I am toxic, I am so impure
I am dying inside
Im dying for a cure
Separated, I am quick to resist
I am all alone infected with thisIm immune to you
You are immune to me
We are both sick souls
With the same diseaseIm a side show, isolated and torn
Only you can touch me
Only you aloneIm immune to you
You are immune to me
We are both sick souls
With the same diseaseIm immune to you
You are immune to me
We are both sick souls
Im immune to you
You are immune to me
We are both sick souls
With the same diseaseThis attraction
We are not getting well
Its a fever I share
Its a plague you feel
Separated, I am quick to resist
I am all alone
Infected with thisIm immune to you
You are immune to me
We are both sick souls
With the same diseaseIts infecting me, its infecting you
Im infected just like you
Its infecting me, its infecting you
Infect me with your loveWe are both sick souls with the same disease
We are both sick souls with the same disease
We are both sick souls with the same disease
We are ALL sick souls with the same disease
