Fireflies

Chris Garneau

It's not easy so
Take it slow
You're coming up, you're coming round the bend
You're my good friend
Best friend
And you're coming up,
You're coming round the bend
Ha ha. HaYou're making friends with the fireflies
I can't say that, that comes as a surprise
But the things they say are not what they seem
So you've been called to tell us what they mean
Yes, you've been called to tell us what they meanIt's a?
I told you
I'm wising up, I'm wising up to them
They seem like good friends
Best friends
But I'm wising up I'm wising up to them
Ha ha. HaYou're making friends with the fireflies
You know when they die their light stays alive
But the things they say are not what they seem
So you've been called to tell us what they mean
Yes, you've been called to tell us what they meanYou're making friends with the fireflies
I can't say that, that comes as a surprise
But the things they say are not what they seem
So you've been called to tell us what they mean
Yes, you've been called to tell us what they mean
Yes, you've been called to tell us what they mean
Yes, you've been called to tell us what they mean
Yes, you've been called to tell us what they mean
