Black and Blue

Ingrid Michaelson

Oh I think I got you figured out
Boy I think I know what you are all about
Finally I can finally see
You pull the darkness right down over me
But now I seeEverybody knows that I'm a mess
Everybody knows you stole the heart from out my chest
Everything you ever said was a lie
You're hiding behind your sweet your sweet goodbyesI'm black and blue
'Cause I fell for you
You said you never would let me go
Oh how could I ever know (I'm falling)I'm black and blue
And in love with you
You said, you never would let me fall
You never would let me fall, but I'm falling
You never would let me fall,
You never would let me fall, but I'm fallingOh I know I'm never gonna stop
I keep burning time away until I hit the top
One day I'll wake up and take up to the open skies
And I'll be the one with all the sweet goodbyesBlack and blue
'Cause I fell for you
You said you never would let me go
Oh how could I ever know (I'm falling)I'm black and blue
And in love with you
You said, you never would let me fall
You never would let me fall, but I'm falling
You never would let me fall,
You never would let me fall, but I'm fallingFalling, falling
Over and over, over and over again
I'm always falling
Over and overBut I'll get up, I'll make it
I need some time to unbreak it
I feel like, I'm falling, I'm falling far away from you
It's what I need to doBlack and blue and in love with you
Black and blue and in love with you
You said, you never would let me fall
You never would let me fall, but I'm falling
You never would let me fall
You never would let me fall, but I'm falling
You never would let me fall

You never would let me fall, but I'm fallingAnd I'm falling
Black and blue
It's what I need to do
