

Strobelight

Luigi Masi

Verse 1

Everything about ya makes me wanna
Wanna try and get to know ya
Hopefully before the night is over
Come with me let me show ya

Verse 2
I can tell that ya looking at me
But it is kind hard to see

The way the lights keep going off and on
Looks like you're moving slower than you really are

BRIDGE
You got me

Your body's

Moving, moving

Left to right

Can I be

The one

That you keep around for life

keep on dancing

lights keeping flashing

I swear I could watch you all night

CHORUS
It is something bout that strobelight

Makes her wanna dance all night

She keeps on going

She keeps on going

She keeps on going long as the strobelight's on, on

Verse 3
Is it getting hot in here

or is it you

(Is it you)

Got me going crazy

and I don't know just what to do

I've neaver bin a fan of bright lights

botherating look on you it's alright

with me, if ya

come with and make the right desiction.
