

# I Made It Through

## Natasha Owens

### Verse 1

Today I may look to you like all has gone my way  
You may have been surprised that you've seen me yesterday  
Faith comes much easier with a warm sun in your face  
But it's a different story in a cold and lonely place  
I may have stumbled, lost my grip a time or two  
It may have been the longest night

### (Chorus)

But I made it through  
Even though there were days  
I thought the sun was gone forever  
And I made it over  
I'm a little bit stronger  
My faith is deeper now I see  
It was all because of you that I made it through

Yeah I have doubts along the way  
It's not hard to question when you're buried in the pain  
Still I kept moving on somehow because of strength  
Surely I was carried by mighty hands unseen

### (Chorus)

But I made it through  
Even though there were days  
I thought the sun was gone forever  
And I made it over  
I'm a little bit stronger  
My faith is deeper now I see  
It was all because of you that I made it through

### (Bridge)

And if tomorrow brings another unexpected storm  
I'll lift my eyes to you  
And wait for the morning

I made it through  
Even though there were days  
I thought the sun was gone forever  
And I made it over

Im a little bit stronger  
My faith is deeper now I see  
It was all because of you  
That I made it through
