

# Justice

MIYAVI

Dead man in the back street  
Passers by don't even look  
Shady guy robs a family  
Cops don't care what he took So tell me where we going  
So tell me where we going  
So tell me where we going  
So tell me where we going Because I know that there's no justice in the world tonight  
The world tonight  
I know that there's no justice in the world tonight  
The world tonight Can't you hear our grieving?  
For justice  
Ringing through this city  
Just tell me  
Choirs of people screaming  
For justice  
Lead us to the meaning  
Hey! A Mother kills to feed her baby girl  
She's got no money for her food  
A homeless man dies of pneumonia  
Yet billionaires try to buy the moon So tell me where we going  
So tell me where we going  
So tell me where we going  
So tell me where we going Because I know that there's no justice in the world tonight  
The world tonight  
I know that there's no justice in the world tonight  
The world tonight Can't you hear our grieving?  
For justice  
Ringing through this city  
Just tell me  
Choirs of people screaming  
For justice  
Lead us to the meaning  
Hey! Because I know that there's no justice in the world tonight  
The world tonight  
I know that there's no justice in the world tonight  
The world tonight  
I know that there's no justice in the world tonight  
The world tonight  
I know that there's no justice in the world tonight

The world tonight Can't you hear our grieving?  
For justice Just tell me  
Choirs of people screaming  
For justice Hey!
