

Another Perfect Day?

Electric Wizard

Today I stopped and stared
I realized I just don't care
A chasm black and wide
Between me and mankind, yeah I've walked this earth 1000 years
Seen the pain and hear the tears
An outcast, all alone
Take me back beyond the sun, yeah Pack the pain away till another day
Pack the pain away till another day
Pack the pain away till another day
Pack the pain away till another day Pack the pain away till another day
Pack the pain away till another day
Pack the pain away till another day
Pack the pain away till another day
