

Oh What A Night

Gerald Levert

I never thought that you what do the things you do
Make my nature rise through the week hours of the night
You got all shook up, thinking I'm in love
Now you see, I'm the one making my love a crime
When I'm inside butcha bought tears to my eyes
Surprised, surprised, oh, what a night we had girl
Ooh, you bad girl didn't know you do that girl
Oh, what a night we had girl, ooh you so fast girl
Didn't know you do that girl, oh what a night
Do you have to go, girl I need you so 'cause baby if you leave
I'll be incomplete but baby, if you stay I'm keeping you home all day
'Cause all work and no play, it won't satisfy me and your needs
It get down on my knees, baby please, baby please
Oh, what a night we had girl
