## Fatboy Slim

Yeh, yeh yeh yeh yeh  
Uhm hmm hm hmIt's a wonderful night  
You've gotta take it from me  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
You've gotta shake it for me  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
Everybody can see  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
Go ahead and release  
It's a wonderful nightCome on and break it on downYou know the music search engine need a tuneup  
Soon as they out the gate they all a want to hear da corner, uh-huh  
Well that was cool but now but then I heard a rumor, uh-huh  
Your crew was ridin' for the White Cliffs of DoverUh let me tell ya how we do it in California  
We'll have you on the run just like a puma  
If it don't move us  
Ain't paid ya dues and it ain't gonna get our roosers  
We gonna lose ya to the consumer solution c'monIt's a wonderful night  
You've gotta take it from me  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
You've gotta shake it for me  
It's a wonderful nightCome on and break it on downGirl I want it you got it  
Your body's like a narcotic  
The thought is auto-eroticCome on and break it on downCan I get it on credit  
I guess your brick-house I'll bet it  
Take it as far as you'll let itCome on and break it on downThat the spot will get hot  
That its ready to pop  
Don't even look at the clock  
All of your problems forgotten  
It's time to rock till you drop  
Feel the force and just flock  
To the epicenter of the party's bass drummers c'monIt's a wonderful night  
You've gotta take it from me  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
You've gotta shake it for me  
It's a wonderful nightCome on and break it on downWe gonna stimulate your mind  
Everybody's high  
Eyes just like a child  
Everything feels rightOnce you've seen the light  
You're gonna move all night

Feel your soul ignite  
Everything feels right, right, rigggggggghhtWe live the masterful life that's mythical  
Feel its chords and its vibes atypical  
Do what you want  
It's alright this mystical time you've got  
That's a lot of this principleIf you stay in this moments so critical  
Let the music change your brain stem's chemicals  
Make you feel like your spirit's invincible  
Force centrifugal reaching up to your pinnacle nowIt's a wonderful night  
You've gotta take it from me  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
You've gotta shake it for me  
It's a wonderful nightCome on and break it on downWe rock like Colorado  
You're at it throwin' bottles  
We give a fuck about who your status  
Who you are tomorrow  
Whether you beg or borrow  
Or hit the super lotto  
Whether your girl look like a minga or a supermodelFeel the connectedness, energy, disprojected the weighted  
The whole collective consciousness  
Arise like helium oh  
Groovin' out of the question  
Won't disrespect him, but  
Our styles fuckin' pouch like Dave Beckham c'monIt's a wonderful night  
You've gotta take it from me  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
You've gotta shake it for me  
It's a wonderful nightCome on and break it on downThe truth I'm at 'em and rough 'em  
As hard as the granite get  
Never hesitant upon a mic strike, quick  
Like an avalanche  
Hijack ya like a Comanche  
I'm a man on a mission  
Rhyme vigilante  
Keep all the jealous and the envious antsy  
Love to do the club though with the party people dancin' uh-huh  
And set the mood for all the plottin' and romancin'It's a wonderful night  
We've got the answer c'mon  
It's a wonderful nightCome on and break it on downIt's a wonderful night  
You've gotta shake it
