Julia

Fefe Dobson

Tell me this is not the end, Julia
You, my love, my oldest friend, Julia
I see you with flowers in your hair, Julia
Running around without a care
Your days were numbered, yeahAnd I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you, I will
I will shine my light on youLet the sunlight show your face, Julia
No one knows you in this place, Julia
I see there's a distance in your eyes, Julia
Can I even reach you if I try
Or is this goodbyeAnd I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you, I will
I will shine my light on youI will shine my light of hope
And change and everything that might have been
If you'd only hear my warning
If you'd only hear me calling
I would shine my light on youTell me this is not the end, Julia
You, my love, my oldest friend, Julia
You put your faith in dreams that kill, Julia
Lying with beauty, breath so still
She couldn't be trusted, yeahAnd I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you, I will
I will shine my light on you
