

The Trains Are So Loud

Kill Hannah

everyone, every time
the trains are so loud everyone that has hands
tear this hemisphere down when walls sway like stage scenery
it's my way out, so follow me down the gas lights
butterflies, when they start to burn
watch them burn every time the gas lights burn the butterflies
i see the way out, it's so loud, it's so loud the trains are so loud
the trains are hemispheres down
the trains are so loud
the trains are butterflies out
the trains are so loud
