

Raging Storm

[Cyndi Lauper](#)

Rich man, poor man, beggar man, thief
You can fool some people but you, you can't fool me
Harbor all the hate and greed
Threaten demise of democracy There's a raging storm in a troubled sea
But you're clouding my mind with celebrity These are darker times for me
Behind smoke and mirrors, amputees
It's a different world, now, I see
The deflowering of the birds and bees There's a raging storm in a troubled sea
But you're clouding my mind with celebrity You can fight for the right to be
But ya better not do a bad show on MTV Rich man, poor man, beggar man, thief
You can fool some people but you, you can't fool me
Smart bombs, rock stars, suit case queens
God's love will deliver our destiny There's a raging storm in a troubled sea
But you're clouding my mind with celebrity There's a raging storm in a troubled sea
Come on people, yeah, yeah, yeah, yeah There's a raging storm in a troubled sea
But ya better not do a bad show on MTV There's a raging storm in a troubled sea
You can fight for the right to be
But you're clouding your mind with celebrity Come on people, yeah, yeah, yeah, yeah
