

# Private Symphony

## Maestro Fresh-Wes

YeahBaby, won't you let me hold you in my arms forever more?  
I conduct your fantasy in a private symphonyPicture you and I way up in the sky  
Flying over oceans while the clouds go passing by  
I kiss you on your lips and taste your scented neck  
We're going on a trip, we'll never ever forgetI'll take you on a voyage  
(Voyage)  
Traveling hand in hand  
Yeah, I'm like an orchestra  
Your body I commandConducting, instructing, you won't need to move  
I'll tell you straight up, girl, won't nobody disturb this groove  
You've been more than just my lover  
You've been my lady, a special friend to me  
So take my hand and lets engage in a private symphonyDarling, let me dedicate this  
Moment to my love affair  
Look into my eyes, well, can't you see?  
You and me in a private symphonyWe'll make love all night and all through the morning  
I'll still hold you tight  
(Tight)  
While the beautiful sunset's formingSee, we don't need no band, baby  
Or no rhythm section  
(Rhythm, rhythm, rhythm)  
'Cause in this symphony, harmony is made from affectionWe'll be rolling, squeezing, pleasing each other, girl  
(Yeah, baby, yeah)  
All over and over and over again, I could never ever love another  
While the harmony plays, our love will never fade  
Because from this day 'til eternity sweet music will be made'Cause you've been more than just my lover  
You've been my lady, a special friend to me  
So take my hand and lets engage in a private symphonyBaby, won't you let me hold you?  
I want to hold you, baby, in my arms forever more  
I want to hold you in my armsI conduct your fantasy  
I'll conduct all your fantasies, baby, you and me  
In a private symphony, in a private symphonyDarling, let me dedicate this  
Moment to my love affair  
Look into my eyes, well, can't you see?  
You and me in a private symphonyI want to dedicate this to you, baby  
Look at me, look into my eyes  
Can't you see? You and me  
In a private symphony, yeah  
Private symphony, you and meIt spins for you and me

Hold me, I want you by my side, honey  
Private symphony  
Never let me go
