Back to You

Jason Blaine

I pull off of the road
Gas lights on I'm running low
In a rush,
Fill it up
Pay at the pump and get back on the highway.
Roll the windows down to stay awake,
Still so far to go.

It's just me and that all night radio
85 set on cruise control
Sipping that red bull keeping me getting where I gotta go, I gotta go
Pushing that engine wearing these wheels thin mile after mile
If I break down I'll get out and run if I have to, to get back to you.
Back back
Oh to get back to you
Back back

I look up in the rear view,
Blue lights shinning pulling me over
And he said tell me son, got any idea how fast you were going? Slow it down. I said I'll try but as soon as he's out of site
It's just me and that all night radio
85 set on cruise control
Sipping that red bull keeping me getting where I gotta go, I gotta go
Pushing that engine, wearing these wheels thin mile after mile
If I break down I'll get out and run if I have to, to get back to you.
Back back

Oh oh
Girl I just can't wait
Oh oh
Baby I'm on my way
Back to you back to you yeah
Back to you back to you oh

It's just me and that all night radio
85 set on cruise control
Sipping that red bull keeping me getting where I gotta go, gotta go.
Pushing that engine wearing these wheels thin mile after mile,
If I break down I'll get out and run if I have to.

To get back to you.
Back back
Oh to get back to you.
Back back
