Five Seconds

Peeping Tom

i'll stick to your heart
straight to your heart
i can't get to your heart
she said five seconds and you're high
straight to your heart
i can't get to your heart
thinking bout the right time
talk in your head,
to be mine
give you a sign
i don't believe in you
you don't believe in me
so how could you make me cry
five seconds to your heart
straight to your heart
i can't get to your heart

there's no way to get iron
five seconds to your heart
straight to your heart
i can't get to your heart
five seconds to your heart s
traight to your heart
i can't get to your heart
she said five seconds in your heart
straight to the heart
i can't to your heart
you keep loosing on
on a stream
could you feel
when it comes it sounds like
and when it comes we kiss
when it comes it sounds like
and when it comes we kiss
