Where You Go

Au Revoir Simone

I see you out sometimes by coincidence
Been reading about you, I know where you've been
You don't know how much I liked you and I think of you
So much to tell you, to fill you inWhere you go
Is where I want to be
Wherever you go
Is where I want to beI wonder if it's right to call you a friend
I remember your eyes, they made me way too late
Now if I'm standing at a party waiting for the train
I know you're out there, can't wait till we meet againWhere you go
Is where I want to be
Wherever you go
Is where I want to beWhere you go
Is where I want to be
Wherever you go
Is where I want you to lead me
To lead meSo much to tell you
I have to find you
It's time I see you
I wish we were alone
And it was late at night
I met you at a party
It was a crowded room
I couldn't hear you talking
You tried to hold my hand
And then you left without me
But don't you know that where you go
Is where I want to be
