

# She's Not an Angel

Mick Flavin

She's Not an Angel - Mick Flavin

She wakes me each morning with a smile  
And she whispers to me softly, she's glad she's mine  
There's not a star above that we can't reach  
She's not an angel, but she's close enough for me.

She likes to party and the bright lights, just like me  
And the love she gives is all I'll ever need  
She'll play a part in every dream I dream  
She's not an angel, but she's close enough for me.

INSTRUMENTAL

She has her faults, just like everybody does  
She's not a high-class fancy lady, but it's her I love  
She's everything that I want her to be  
She's not an angel, but she's close enough for me.

She likes to party and the bright lights, just like me  
And the love she gives, is all I'll ever need  
She'll play a part in every dream I dream  
She's not an angel, but she's close enough for me,  
She's not an angel, but she's close enough for me.
