

Hold Out

Caught a Ghost

(Verse 1)

You can tell me all about your made up friends.

You can complain about your boring job.

You can fight, I will make amends.

Try to shake me, but I'm not gonna stop.

Found out what you wanted to know.

There's no doubt you're the one I was made for.

There's no use trying to hang me up,
I'm bound to do what I came here to do.(Chorus)

You can wear your heart out,

Or you can wear your heart out on your sleeve.

You can try to hold out,

Or you can try to hold out your hand to me,

Your hand to me.(Verse 2)

You can pretend that you're not at home.

Burn my money up and crash my car.

You can steal all of my best clothes.

Try to flee, but I'm quicker by far.

Find out that it's no worth the fight.

there's no doubt that I'm better than no one.

There's no use trying to shut me up.

I can holler 'till me face is blue.(Chorus)

You can wear your heart out,

Or you can wear your heart out on your sleeve.

You can try to hold out,

Or you can try to hold out your hand to me.

So hold out your hand to me.
