

# This Love Is Here To Stay

[Thomas Dybdahl](#)

Six days on a run, eight balls in BB Guns  
Maybe five more days before they take me away  
I pray this love is here to stay Six times in a night, twelve ways to get it right  
You wanna do it again when the spoon hits the flame  
I pray this love is here to stay Like removing a lane, I'm slowly going insane  
This place is all like a maze and I don't feel ashamed,  
I can't remember my name  
I pray this love is here to stay  
A night pill for the fight, I never was a killer type  
I kept it up for here, slowly drowning in fear  
Now I'm afraid this love is here to stay Like removing through lane, I'm slowly going insane  
This place is all like a maze and I don't feel ashamed,  
I can't remember my name  
I pray this love is here to stay  
Well I'm gonna be, I'd better stow some memories  
So c'mon give me a kiss with your sweet soft lips  
So I know this love is here to stay  
So I know this love is here to stay
