

# Shed the Skin

## Onesidezero

Swallow, your eyes  
Circle the tired, survive  
Sharing the light we have lost You might believe that it was so wrong  
Forcing us down into  
Another belief to carry us home  
Forcing us down into  
You wrote the words that we said so wrong Swallow your rites  
Sample the sweetness, your life  
Show me what it means to be free You might believe that it was so wrong  
Forcing us down into  
Another belief to carry us home  
Forcing us down into  
You wrote the words that we said so wrong I feel like I've shed my skin  
We've done it this time, we've lost all self-control  
Follow us this time, I wish I could  
Imprisoned this time  
When will the truth be told  
Follow us this time, I wish I could You might believe that it was so wrong  
Forcing us down into  
Another belief to carry us home  
Forcing us down into  
You wrote the words that we said so wrong  
Forcing us down into  
Another disease that's killing us all  
So wrong, we're so wrong  
I feel like I've shed my skin
