

# Electrical Energy

JR JR

Lately  
Country clubs and old bascinets  
Magnets reading me like cassettes  
I'm thinking lately  
What's it take to maybe turn me on  
Lately  
An outlet in an airport somewhere  
Board rooms filled with musical chairs  
I'm thinking lately  
It's about to break me  
It's your electrical energy  
That makes the others seem obsolete  
Can't wrap my arms around what's in your mind  
But that's alright cause you know I come alive  
When you're right here with me  
Lately  
Different prongs for every wall  
Magnifying all that is small  
I'm thinking lately  
What's it take to maybe turn me on  
Lately  
Telescopes make distance feel fake  
Wires crossing keep me awake  
I'm thinking lately  
It's about to break me  
It's your electrical energy  
That makes the others seem obsolete  
Can't wrap my arms around what's in your mind  
But that's alright cause you know I come alive  
When you're right here with me  
Sometimes I ask myself where does it come from  
Sometimes I ask myself where does it go  
My mind is always full of strange ideas  
But the only thing I really know  
The only thing  
It's your electrical energy  
That makes the others seem obsolete  
Can't wrap my arms around what's in your mind  
But that's alright cause you know I come alive

When you're right here with me

When you're right here with me

It's your energy

I feel it in me
