

No Room

The Flaws

When theres no room in your room
i cant raise your dead heart
i feel useless
finally tied down
so follow me as i go
to find

theres no room in your heart
there aint no room in your life
and im tired of hanging on to what you could provide
cause you dont know me that well

i was waiting on some new way
one that wouldnt shun me
cause when theres no room i
find it hard to file
so follow me as i go

theres no room in your heart
there aint no room in your life
and im tired of hanging on to what you could provide
cause you dont know me that well

theres no room in your heart
there aint no room in your life
and im tired of hanging on to what you could provide
cause you dont know me that well
