

# State of Emergency

## Steel Pulse

State of emergency  
State of emergency  
State of emergency  
State of emergencyState of emergency  
Emergency, emergency  
Emergency, emergency  
Emergency, emergencyState of emergency  
Emergency, emergency  
State of emergency  
Emergency, emergency  
State of emergency  
Emergency, emergencyFrom Brixton to Cape Town  
Unrest all around  
From Handsworth to Uitenhage  
Lawlessness on the rampageSticks and stones, they're throwing  
Set ablaze the buildings  
Youthful minds are stirring  
Time to make a changeWho they think they're fooling?  
No want no diverse doctrines  
Forever we will strive  
Fighting against apartheidState of emergency  
State of emergency  
Never seen such urgency  
State of emergency  
State of emergency  
Never seen such urgencyForever we will strive  
Never seen a thing like this beforeHow long can this go on?  
A riding, riding, ride the storm  
Me tired, me tired of being a stepping stone  
Just to hell with words and give me actionSticks and stones, they're throwing  
Set ablaze the buildings  
Youthful minds are stirring  
Time to make a changeWho they think they're fooling?  
No want no diverse doctrines  
Forever we will strive  
Fighting against apartheidState of emergency  
State of emergency  
Never seen such urgency  
State of emergency

State of emergency  
Never seen such urgencyState of emergency  
State of emergency  
Never seen such urgency  
State of emergency  
State of emergency  
Never seen such urgencyForever and ever we will strive  
Whole wide world is burning  
Forever we will strive  
Bring bring, gun shot ringFrom Brixton to Cape Town  
Unrest all around  
From Handsworth to Durban  
No satisfactionWe will strive for freedom now  
We will strive for freedom now  
We will strive for freedom now  
We will strive for freedom now
