

Feels Good At First

Train

Teach me to fall and i'll teach you to sing
When life keeps stealing your melody
Around your finger, i'll be a string
I will forget everything i know
About love
I don't know about love
But it sure feels good at first
I'll learn to dance if you promise not to laugh
And i'll end up in a cast from falling over
And you cant get mad when some girl you think i had
Puts a story in your head when i hardly know her
So, about love
I don't know about love
But it sure feels good at first
Oh every spring there's a honey bee that stings
So things can change
Oh every fire gets too close and it reminds you
Things can change in love
But it sure feels good at first
For every heartbreak there's a sermon to be said
And this pastor in my head is preaching to the choir
Don't get me wrong 'casue its too soon to decide
But this ain't my first rodeo
And my hearts been roped and tied in love
I don't know about love
But it sure feels good at first
Oh every autumn colors come that you've forgotten
So thing's can change
Oh every frost some live on and some are lost
So things can change in love
But it sure feels good at first
Na na na na
Mmm mmm mm
Na na na na
Mmm mmm mm
It sure felt good at first
