

# Are You OK?

## Oh No Not Stereo

We've got tambourines  
in our amplifiers  
And we like to smile big  
when we play our guitars  
master the machines  
that you've got in your arms  
and keep thinking big  
kid you're not very far  
Are you happy now?  
Are you O.K.?  
Baby are you O.K.?  
You're only gonna go  
You're only gonna go  
where you take yourself  
Your self, your poor self.  
Laying on your back down there  
telling me what you see  
When all i see  
is a little important time away  
for me to say fuck you  
I love you, but fuck you  
It's a victory run  
evicto re-run  
I'm taking back all the good things I said about you  
And I'm never holding you to the things you told me  
And I wanna see you live without me  
yeah, I want you to do  
Everything you told me  
Low low low low  
low low low low  
Are you O.K.?
