

# Monterey

## Starflyer 59

Lost on words for you  
And I'd better make it soon  
In a world for you  
And the better one you are And I'm turning off  
To a place that you don't know  
And I'm turning off here  
To a place I know  
I know, I know, I know Lost on words for you  
And I'd better make it soon  
In a world for you  
And the better one you are And I'm turning off  
To a place that you don't know  
And I'm turning off here  
To a place I know  
I know, I know, I know  
I know, I know, I know  
I know, I know, I know
