

Life

Brides of Destruction

It seems so hard
To stay so positive
I know how it feels
It just takes time
Something's gotta give Don't let the negative
Steal the blue out of the sky
Don't leave it all behind This is life this is it
It's not everything you want it's everything you get
Believe it
It's not worth leaving Yeah this is life once again
It's been knocking at your door you ought to let it in
Don't waste it
It's time you faced it It seems like years
Since you've known happiness
So down so long
So calm your fears (so calm your fears)
And you'll get out of it (and you'll get out of it)
Just hang on (just hang on) So this is life this is it
It's not everything you want it's everything you get
Believe it
It's not worth leaving Yeah this is life once again
It's been knocking at your door you ought to let it in
Don't waste it
It's time you faced it Why do you cry?
Why do you cry?
Steal the blue out of the sky
Don't leave it all behind This is life once again
It's been knocking at your door
Don't waste it
It's time you faced it This is life this is it
It's not everything you want it's everything you get
Believe it
It's not worth leaving Yeah this is life once again
It's been knocking at your door you ought to let it in
Don't waste it
It's time you faced it This is life
This is life yeah
Don't let it pass you by pass you by yeah
It's time you faced it

It's time to turn around and face it
