Cry Baby

Spiller

[Chorus]
Go ahead and cry baby
Cry baby all night long
Just like I cried baby
On the pillow that you used to lay on

The sun is out and my
Sorrows finally drowned
So go on and turn it up
"Cause it's my favorite song
I sucked it up
And washed your memory down
I've finally let you go
And now you comin' back around

One minute sooner and my heart
Was good as gold
But time's a bitch and now it's
Turned my heart to stone, so

[Chorus]

You made our bed
And now I gladly lay in it
"Cause there's way more room
And I use every single bit
It's true it's sad
"Cause you and I we were the shit
"Cause our love was real
And all you got now's counterfeit

But it's cool I'm feelin' better all the time
As long as I know that you sittin' home cryin' , so

[Chorus]

No wonder you cry baby
Cry baby all night long
Just like I cried baby

On the pillow that you used to lay on

One minute sooner and my heart
Was good as gold
But time's a bitch and now it's
Turned my heart to stone, so

[Chorus]

Need a little something to make me feel better
Need a little something to make me feel better
