In Between

Becca

Don't wait up,
I'll be staying late doing my thing
Stop worrying
Darling, you know you're some kind of wonderful
And I don't want to let that get too comfortable.
Cause we're in between
A one night stand and a wedding ring
It's just you and me, right here, right now.
So don't walk away, I love you more each day (each day)
Just relax
I'm not playing games
Don't hold back, you don?t have to be afraid

Cause I'm coming over for a little while
Baby, I don't have to move out if I never move in
Darling, I'd bring my toothbrush but it just doesn't seem to fit
Cause we're in between
will you stay the night and marry me
It's just you and me, right here, right now.
So don't walk away, I love you more?
So let?s take it slow ?cause I wanna know every little thing about you cause I?m feeling so good, I wanna show you every little thing about me
Cause we're in between
A one night stand and a wedding ring
It's just you and me, right here, right now.
So don't walk away, I love you more?
