Green

DENM

It's been about 25 years that I've been walking in these shoes here
Sometimes were hard sometimes were good. Fell in love never thought I would.

When I see them pretty greens eyes, looking right back at mine. Just wanna love baby, oh just wanna love you, baby.

When I see them pretty greens eyes, looking right back at mine. Just wanna love baby, oh just wanna love you, baby.

When I was eighteen he was a little bit shady, always trying to play me, but you were my baby I don't even wanna know. Who you were texting where you been raised in I've been wasted, I don't know I don't know.

When I see them pretty greens eyes, looking right back at mine. Just wanna love baby, oh just wanna love you, baby.

When I see them pretty greens eyes, looking right back at mine. Just wanna love baby, oh just wanna love you, baby.

When I see them pretty greens eyes, looking right back at mine. Just wanna love baby, oh just wanna love you, baby.

When I see them pretty greens eyes, looking right back at mine. Just wanna love baby, oh just wanna love you, baby.
